JATIN SHARMA

Software Engineer (Full Stack)

+91 6367807635 | jkjatinsharma72@gmail.com | https://www.linkedin.com/in/jatin-sharma-82121217a/

PROFESSIONAL SUMMARY

Full Stack Software Engineer with experience building SaaS products and automation systems using Next.js, TypeScript, Node.js, Express.js, and PostgreSQL. Strong in REST APIs, authentication/authorization (JWT, RBAC), database design, and production debugging. Deployed automation microservices on AWS EC2, used S3 for file storage, and set up CI/CD pipelines for reliable releases. Focused on performance, stability, and clean UX.

EDUCATION

GLA University, Mathura (UP)

B.Tech (CSE) | 2021 – 2025

TECHNICAL SKILLS

Languages: Java (Data Structures & Object-Oriented Programming), JavaScript, TypeScript, Python, SQL
Frontend: React.js, Next.js, Tailwind CSS, Bootstrap, shadCN/UI, HTML/CSS
Backend: Node.js, Express.js, Django, REST APIs, WebSockets
Auth & Security: JWT, RBAC, secure API patterns, OAuth2/OIDC
Databases: MongoDB, PostgreSQL, MySQL
Testing & QA: Jest, Cypress, Playwright, Selenium, Postman
DevOps & Tools: Git, GitHub, Docker, Vercel, AWS (EC2, S3, Lambda), microservices, CI/CD
AI/ML & Data: Generative AI, LLM Integration, spaCy, node-nlp, TensorFlow
Web Scraping & Automation: BeautifulSoup, Selenium, Chrome Extensions, Telegram Bots
Payment Integration: Stripe

SOFT SKILLS

Management: Leadership, Team Management, Ownership & Accountability
Problem Solving: Critical Thinking, Problem Solving, Debugging Mindset, Attention to Detail
Communication: Communication Skills, Stakeholder Management
Collaboration: Collaboration & Teamwork, Agile / Scrum Methodology
Execution: Time Management, Efficient Execution
Growth Mindset: Adaptability, Quick Learning
Product Mindset: Product Thinking (User-first approach)

CERTIFICATIONS

- HackerRank: Java, Python, Problem Solving (Certified) | 5-Star in Java, Python, C
- Cutshort: HTML/CSS Certification (link) | React.js Certification (link)
- Coding Blocks: Competitive Programming Certification (link)

ACHIEVEMENTS

- Winner – Startupathon 2024: Built resume enhancement tool using LaTeX and LLMs
- Built automation workflows that improved engagement by 30% and helped over 10,000 developers.
- Participated in SIH and secured 4th place in university-level competition.
- Improved platform UX using direct user feedback and turned negative feedback into 0 negatives, improving retention and trust.

EXPERIENCE

Persist Ventures | Software Developer

Aug 2024 – Present | Remote

- Built and scaled the Devs Career Accelerator platform using Next.js, TypeScript, Node.js, PostgreSQL, and AWS, supporting over 10,000 developers and 200 recruiters.
- Developed and maintained core backend services including Resume Improver, LinkedIn Profile Enhancer, Job Auto Apply system, AI Recruiter Matcher, and Job Recommendation Engine.
- Implemented secure authentication and authorization using JWT and role-based access control across user, recruiter, and admin modules.
- Developed AI-driven automation workflows for resume improvement, LinkedIn profile optimization, and automated job applications using LLM-based scoring and feedback.
- Designed reliable pipelines for job discovery, filtering, matching, and application submission, handling dynamic websites with retries and failure handling.
- Created and integrated a Chrome extension for authentication, real-time sync, and subscription validation, used by thousands of active users.
- Deployed and managed services on AWS EC2 with S3 for secure file storage, and set up CI/CD pipelines to automate testing and deployments.
- Worked closely with product and engineering teams in an Agile environment, improving user experience through direct feedback and increasing engagement and retention.

IGOKO Avionics Pvt Ltd | Full Stack Developer Intern

June 2023 – July 2023 | New Delhi, India

- Developed and deployed features for B2B/B2G applications using React.js, Node.js, Django, and MongoDB.
- Implemented RBAC and protected API flows for restricted modules, ensuring correct access control across user roles.
- Improved API reliability by adding validation and error handling and ensuring stable responses for production workflows.

PROJECTS

Mocker.AI (AI Mock Interview and Quiz Platform) - http://mocker-ai.vercel.app/

(Next.js, PostgreSQL, JWT, RBAC, Stripe, Gemini AI, shadCN/UI, Tailwind CSS)

- Developed Mocker.AI, an innovative AI mock interview platform for job seekers, enhancing user engagement through voice-based interviews and AI-generated quizzes.
- Designed a seamless user experience by enabling users to respond via microphone and camera, facilitating real-time transcription and evaluation.
- Employed Gemini AI for providing structured feedback, including detailed scores, improvement suggestions, and analyses on relevance, clarity, and completeness of responses.
- Integrated multiple-choice quizzes with instant feedback and thorough explanations to support user learning and preparation.
- Utilized Clerk for secure authentication, ensuring user data safety and managing access efficiently.
- Managed all user attempts and responses in PostgreSQL for reliable data storage and retrieval.
- Integrated Stripe for subscription services, implementing a secure payment gateway for monetization of the platform.

Smart Resume Analyzer - https://github.com/MrtitaniumJ/Smart-Resume-Analyzer

(React.js, Node.js/Express, MongoDB, spaCy, NLP, TensorFlow, Bootstrap)

- Developed an ML-based tool utilizing NLP to evaluate resumes against job descriptions.
- Implemented advanced data extraction and analysis techniques using spaCy and NLTK for enhanced functionality.
- Identified missing keywords and skill gaps to provide actionable insights for users.
- Created personalized improvement suggestions to help both freshers and professionals optimize their resumes for alignment with specific job descriptions.
- Enhanced user understanding of resume alignment with job requirements to facilitate career advancement.

Inventory Management System - https://github.com/MrtitaniumJ/Inventory-management/

(React.js, Node.js/Express, MongoDB, Tailwind CSS)

- Developed inventory CRUD system for product and stock management with validation and error handling.
- Structured backend code with clean routes and controllers for easy maintenance.
